#### Project Description:

Architecture and interior architecture for a 90,000 square foot built-to-suit headquarters building. The facility houses staff supporting the field personnel and the outreach and fund-raising divisions. The facility also accommodates many visiting dignitaries and field personnel who travel to participate in the ministry's programs and activities.

Prison Fellowship Ministries conduct frequent internet and radio broadcasts from this facility. The building is designed with four sound bunkers for recording and broadcasting instructional material and one sound studio for radio program recording.

In addition, the space includes two hospitality centers, a 400-seat multipurpose room, bookstore, classrooms, library, and visitor's center with information kiosks. A guest residence features a commercial kitchen, dining room, and seven guest suites.
