Construction Administration

Project Description:

Master planning, Architecture and Interior Architecture services for an upscale residential building within a landmark mixed use development. Waterfront Street Condos offer 80,000 SF of space with 20,000 SF of retail and an additional 20,000 SF of parking below. Located in the heart of the mixed-use development, the seven story building features 18 units with breath taking views over looking the harbor and the Potomac River.
